BOSTON'S LIFELESS MARKET.

Stagnation Follows Activity and Stagnation Precedes Activity. The condition of the Boston stock tarket is indicated in the weekly let-er of Hayden, Stone & Co., as fol-

"Stagnation follows activity and stagnation precedes activity. Seldom have manipulative orders constituted such a small percentage of the total business done at the stock exchanges. The average trader does very little except where powerful leaders with their manipulation are at work. It is safe to say that an unusually large percentage of orders executed at the stock exchanges during the past week represents the transactions of bona fide opresents the transactions of bona fide

"The market acts as though if absolutely left to the play, back and forth, of investment orders, it would advance. It is safe to say that there is a very large and widely distributed short interest. The professional element, socalled, is almost unanimously bearish, and whenever it is at all active, its influence has been to depress prices. "There has not been any evidence of forced liquidation at any time for several weeks past. The market acts very much as though it had declined and become dull in anticipation of and in preparation for a series of severe blows. Those blows may come in the shape of a Northern Securities decision, a coal strike, a war of rates or critical developments in the series of restricted decision, a coal strike, a war of rates or critical developments in sult of surprises in Asia. It has often been true in the past that the market when prepared for such disappointments has advanced when they

PUMPING PLANT BOUGHT.

New York Will be Ready For Work Again About Monday.

A Cameron sinking pump capable of handling 100 gallons of water per minute was shipped out to the New York Bonanza company's Park City property yesterday morning. The piping was bought in Park City and had been delivered at the mine when the livered at the mine when the pump was bought. By Monday, it is expected, work will be going on as usual at the property. While the amount of water to be taken care of is inconsequential, it was thought advisable to secure a nump of sufficient capacity to secure a pump of sufficient capacity to meet any increase that might develop with the exploration of the south vein and the surface water which is sure to come in during the spring thaws.

The face of the west drift in the main ledge on the 400 level is in a most interesting country just now, and when work was suspended a few days ago. Secretary Barnett reports, there was

two feet of ore of commercial grade. A point has now been reached where the fine streak of ore encountered on the 200-foot level should begin to make its hoped, a good-sized shoot rather than a streak of it will be uncovered. The showing made during the last few shifts was such that Superintendent Engagement and Capacity Mass. March 2 The counters.

UTAH CON. EARNINGS.

Coming Annual Report Will Make

a Fine Exhibit.

The annual report of the Utah Consolidated Mines company will very shortly be issued and, according to the following statement attributed to a large interest in the company by the Boston News Bureau, it will show net earnings in excess of \$1,000,000:

"I am not surprised at the New York buying of Utah Consolidated, for the property is managed from that city and the large owners there have acquainted their friends with the value of the property and have been adding steadily to their holdings themselves.

"The annual report, I am told, will show net earnings of between \$1,000,000 a Fine Exhibit.

show net earnings of between \$1,000,000 and \$1,100,000, as compared with dividends paid of \$900,000, and it will show that the company has more than enough money on hand to pay for the 40 per cent enlargement of its smelter. It will also show that the ore reserved

"The Utah is only starting upon its career. With a 40 per cent smelter en-largement it will be able to make a magnificent showing of earnings, which will result in larger dividends than \$5 per annum. The annual report cannot help being a very pleasing statement for stockholders to contemplate."

the plans of the great corporation are being slowly but all the more surely matured.

The statement is made that the company will be in readless to disclose its identity and give an outline of the policy to be pursued in handling the properties which have been and are still being acquired by or before the eud of the present month. The assurance is given, also, that when operations are begun the mining fraterrity will recognize that an enterprise the equal of any that has been launched in this state in many years will have been born.

New York, March 9.—Coffee—Spot Rio. dull; mild, steady. The market for coffee futures opened steady at unchanged prices to a decline of 5 points under liquidation following rather disappointing European cables. Primary receipts were moderate, however, and while the continued liquidation of the near months had rather a depressing influence on those positions, nearby sellers absorbed the offerings of the latter months and the market on the whole showed considerable steadiness. The close was steady at a decline of 19 points on April, but generally 5 points lower to 5 points higher. Sales were reported of 11,000 bags, including: April, 5.15; May, 5.2565.30; July, 5.3565.00; September, 5.7565.85; December, 6.0566.10; January, 6.20; February, 6.20, Sugar—Raw, firm: fair refinings, 2 15-16; centrifugal 96 test, 3 7-16; molasses sugar, 2 11-16; refined, firm.
